

ML A3 Report

1. **The Table View:** A list showing all 5 runs, sorted by your primary performance metric (e.g., Accuracy).

Experiments > Assignment3_Habiba >

Runs

Search: metrics.rmse < 1 and params.model = "tree"

Time created | State: Active | Datasets | Sort: accuracy | + New run

	Run Name	Created	Dataset	Duration	Source	Models	Metrics
☐	able-grub-797	1 hour ago	-	1.7min	Assignment...	model	0.982883333...
☐	classy-loon-334	1 hour ago	-	1.1min	Assignment...	model	0.978633333...
☐	whimsical-shrew-407	1 hour ago	-	41.9s	Assignment...	model	0.942183333...
☐	rare-croc-448	2 hours ago	-		MLA3.ip...	model	0.90755
☐	clean-goat-808	2 minutes ago	-		Assignment...	-	0.886433333...
☐	sincere-lamb-493	1 hour ago	-	3.6min	Assignment...	model	0.8859
☐	invincible-ape-235	2 hours ago	-	136ms	MLA3.ip...	-	-

7 matching runs

2. **The Comparison View:** A single chart showing the `Loss` or `Accuracy` curves of at least 3 different runs overlaid on each other.

3. **The Artifact Gallery:** A view of the "Artifacts" tab showing the saved model, the `MLmodel` metadata file, and the auto-generated environment files.

4. ****Short Analysis:**** Which run was the "Winner" and why? Did you notice any evidence of overfitting or underfitting in the curves?

The screenshot displays the mlflow web interface for a run named 'able-grub-797'. The interface is divided into several sections:

- Left Sidebar:** Contains navigation links for 'Runs', 'Models', 'Traces', and 'Model registry'. At the bottom, there are links for 'Assistant', 'Docs', and 'Settings'.
- Top Bar:** Shows the mlflow logo and version '3.10.1'. Below it, there are tabs for 'GenAI' and 'Model training'. The current view is 'Assignment3_Habiba > Runs > able-grub-797'.
- Overview Tab:** This is the active tab, showing a search bar for metrics and a table of metrics. The metrics table has three columns: 'Metric', 'Value', and 'Models'. It lists 'loss' with a value of '57.36122773215175' and 'accuracy' with a value of '0.9828833333333333'. Both metrics are associated with a 'model'.
- Parameters (3):** Below the metrics table, there is a search bar for parameters and a table of parameters. The parameters table has two columns: 'Parameter' and 'Value'. It lists 'learning_rate' with a value of '0.1', 'epochs' with a value of '10', and 'batch_size' with a value of '64'.
- Right Panel:** This panel contains information about the run, including 'Status' (Finished), 'Run ID' (5a8f062fcb7e42039b94bbac35bd0f3c), 'Duration' (1.7min), 'Source' (Assignment3.py), 'Registered prompts' (None), 'Datasets' (None), 'Tags' (student_id: 202202088), and 'Registered models' (None).
